

# Singularly AWESOME

NEW!

## FRONTLIT VIEW

Four-layer printing on the UCJV300-160 model produces a dynamic graphic that 'changes' its image or color scheme depending on the light source.

UCJV300-160

Mimaki

**Introducing the world's first 64-inch UV-LED  
print-and-cut devices.**

The new Mimaki UCJV Series are the only 64-inch UV integrated printer-cutters with models offering four-layer printing, white ink, plus in-line cutting capability at a price that allows you to be competitive and more profitable.

**Mimaki**

## Features of the Mimaki UCJV Series

### The world's first 64-inch UV cut-and-print device

Flexible instant drying UV cure inks and the integrated cutting features of the UCJV Series provides the application and production versatility to print and cut – or cut first then print – labels, decals, window clings, vehicle markings, and more.

### Transitional effects with 4-layer printing

The UCJV300-160 model comes with Rasterlink 6 Plus software and utilizes white ink to deliver a unique 4-layer print work flow, enabling you to easily create stunning transitional panels that “change” with the light source!

### Production versatility

Expand possibilities and realize production efficiencies only achievable with the seamless work flow of the new UCJV 64-inch UV-LED print-and-cut devices.
